REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: claims 1-16 are allowable over the closest prior art. The claims were previously rejected as being obvious in view of count 1 of interference 105,110 taken in view of Toigo. The claims are allowable over this combination because Toigo does not teach or suggest patterning a medium along a track through separate regions of ferromagnetic coupling and antiferromagnetic coupling as recited in claims 1, 10, and all claims depending therefrom.

Thus, the combination of count 1 of interference 105,110 and Toigo does not teach, suggest or otherwise render obvious the magnetic recording medium as recited in independent claims 1 and 10. Independent claims 6-7 and 13-14 are allowable for the reasons of record (See Office action mailed 7/31/07).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
